Established in 2002 and listed on Catalist (formerly known as SESDAQ) in 2005, Ntegrator is one of the leading players in the IT and telecommunications industries in the region, backed by an established track record. Ntegrator's core businesses include the design, installation and implementation of data, video, fibre optics, wireless and cellular network infrastructure as well as voice communication systems. The Group also provides project management services as well as maintenance and support services.

The Group counts companies such as Viettel (the largest telco operator in Vietnam), SingTel, M1 and the Government of Myanmar amongst its well-established customer base. In addition, the Group is supported by its loyal key suppliers, including Alcatel and ECI - all leading players in their respective fields.

Having established a strong foothold in Singapore and Vietnam, the Group is now making inroads into other Indo-China countries, expanding its regional footprint to new markets.

our vision

To be a global, world-class provider of information technology and telecommunications solutions, offering high-tech network infrastructure and voice communication systems.

PROJECT SALES

Our Project Sales Division consists of Network Infrastructure and Voice Communication Systems.

Network Infrastructure

We integrate network infrastructure which enables end-users to communicate electronically within an organisation or with another organisation, either within the same country or globally.

We provide total end-to-end infrastructural business solutions, such as:

- Network integration services, from fixed-line, e.g. Optical DWDM, SDH, IP DSLAM and ADSL, to wireless solutions, e.g. Microwave, VSAT and WIMAX;
- Design, installation and implementation of data, video, fibre optics, wireless and cellular network infrastructure; and
- Customised solutions according to customers' needs.

Voice Communication Systems

We are able to seamlessly integrate voice and data signals used in large organisations' telephone network, which include:

- PABX;
- Video conferencing systems;
- Voice messaging, recording or logging systems; and
- VoIP applications.

We offer flexible and user-configurable systems for exact customisation to our customers' needs, ensuring the delivery of total end-to-end enterprise business solutions.

PROJECT MANAGEMENT AND MAINTENANCE SERVICES

Our Project Management Services include the provision of installation and implementation services for our network infrastructure and voice communication systems.

We also offer onsite and online maintenance and support services. These services are supported by our 24-hour fault control hotline, hardware and software repair services, online CRM system services, 24-hour onsite support services and 24-hour remote modem dial-in services.

Chairman's Statement

Bernard Chen Tien Lap

Chairman
23 March 2012

Dear Shareholders,

Ntegrator has made a moderate recovery in FY2011, after slipping into the Group's first-ever loss the previous year. The Group delivered a net profit of S\$0.3 million in FY2011, compared to a loss of S\$6.9 million in FY2010. The bottom line performance was achieved after an additional provision of S\$1 million for stock obsolescence in accordance with the Group's accounting policy.

The two major strategic initiatives introduced in these past two years to strengthen our Balance Sheet as well as to improve our cash flow and to improve the Group's business performance and margin have both been successfully executed. We are now beginning to enjoy the early fruits of this two-pronged strategy.

To mitigate the risks associated with the Group's reliance on projects and to provide a steady stream of recurring income, management has successfully delivered to strategy – to increase our Maintenance and Project Management business as a percentage of our project-based business. These multi-year maintenance contracts provide better margins and have lower risks associated with project deliveries.

FINANCIAL PERFORMANCE

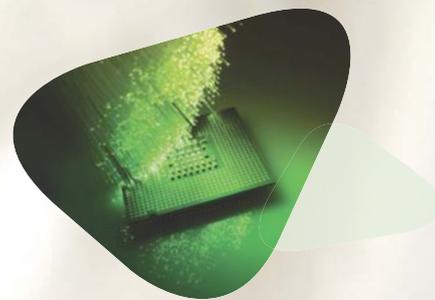

Group revenue for FY2011 was S\$36.9 million, a marginal decrease of 1.8% from S\$37.6 million recorded in FY2010. This is largely due to our Thailand project which was delayed as a result of the floods in Thailand late last year. These floods interrupted the project for almost four months. The Group has since re-engaged in this project and the associated revenue will be recognised in FY2012.

Project Sales revenue decreased 7.8% to S\$27.5 million, from S\$29.8 million in FY2010. This decline was offset by a 21% increase in Project Management and Maintenance Services, from S\$7.8 million to S\$9.5 million. This improvement is also testimony of the growing confidence of our current clients and their satisfaction for our quality standards and value-added services.

One clear signal that the Group is fully back on track is a doubling of gross profit for our core Project Sales from S\$2.8 million in FY2010 to S\$5.9 million in FY2011.

Gross profit for Project Management and Maintenance Services increased from S\$2.3 million to S\$2.6 million, up 14.4%. As the Group continues to grow this business segment to build a stronger revenue flow of recurring income, we expect to enjoy greater economies of scale for services in Singapore and overseas.

To realise economies of scale and enjoy improved competitive rates, the Group also initiated a consolidation of shipments and increased the use of sea freight instead of air shipment. Freightage costs were reduced by 28.2% in FY2011.

STRENGTHENED BALANCE SHEET

Following the global crisis in 2009 when it became increasingly more difficult to arrange project financing, we took the difficult decision to tighten Ntegrator's credit policy, requiring Letters of Credit from our customers for all projects outside Singapore. Notwithstanding the loss of some smaller projects and expansion works as a result of this credit tightening, we managed to convince most of our key customers to convert from traditional payment terms to Letters of Credit.

Since then, the Group has successfully improved on its collections and reduced both its outstanding current and non-current account receivables.

NEW CONTRACTS

In FY2011, the Group continued to win new contracts from repeat customers in Singapore and Indo-China. Singapore's two largest telcos, Singtel and M1, as well as Huawei International signed new contracts with the Group. Vietnam's largest telco operator, Viettel, gave the Group a few new orders for its new initiatives in Indo-China, and a maiden order for its subsidiary, Movitel Mozambique, marking Ntegrator's first venture into Africa.

These repeat businesses from major customers in Singapore and Indo-China are strong testimonies of their confidence in Ntegrator's technical expertise and proven track record, especially for high-tech network infrastructure and voice communication systems.

New customers included SMRT Light Rail and Matrix Networks in Singapore. We are pleased to have secured a beachhead with SMRT, with the design, manufacture, installation, testing and commissioning of an ECI system which will link 13 operating LRT stations to the depot at Bt Panjang LRT station.

During the year under review, the Group also succeeded in securing more project maintenance contracts from repeat customers. We now have a team to provide 24/7 project management and maintenance services to customers in Singapore and Indo-China.

SINGAPORE REPRESENTATIVE FOR OSCILLOQUARTZ

In April 2011, Ntegrator was appointed by Oscilloquartz SA as its Representative in Singapore. The Group joins other Representatives in Europe, America and Asia, including China and India to offer Oscilloquartz's current specialised synchronisation systems and new related products in the pipeline to enhance telcos' infrastructure.

OUTLOOK

Going forward, we expect Ntegrator's business mix to be more balanced, with project management and maintenance contracts increasing as a percentage of project sales, providing the Group with a steady stream of recurring income.

The ongoing economic and political liberation in Myanmar has generated a host of new business opportunities. With the Group's early participation in the country's telco infrastructure, Ntegrator is in a strong position to benefit. The Group expects to capitalise on more business opportunities over the next two to five years.

Our outstanding order book of S\$26.8 million as at the end of 2011 puts the Group in a stable financial position as we move into 2012.

ACKNOWLEDGEMENTS

I would like to acknowledge the contributions of my fellow Directors in putting the Group on stronger financial and business footing. To our management team and their staff, I would like to record our appreciation for their commitment and hard work as we weathered the storms of yester-years. Last but not least, I must also thank our shareholders, customers and business partners for their continued support and patience.

With the worst behind us, we can all look forward to better days ahead. Thank you.

Operations Review

The worst is now behind us! In FY2011, our business operations returned to steady state, with the resumption of all projects that were delayed the previous year due to a host of different reasons that were mostly beyond the Group's control.

All the projects carried over from FY2010 were completed, except for the Thailand project which was disrupted for almost four months by the unprecedented severe floods in Thailand at the end of FY2011. Work on this project has, once again, resumed and we expect to recognise the associated revenue in FY2012.

During the year under review, the Group won several new contracts from repeat customers as they continue to develop their telecommunications infrastructure networks in their home countries as well as new geographies.

Through one of our largest clients in Indo-China, Viettel Global Investment Joint Stock Company, the largest telco operator in Vietnam, we secured our maiden project in Mozambique, Africa – the Group's foray into Africa. This contract was for the supply of SDH equipment for Movitel Mozambique, one of Viettel's subsidiaries.

New contracts from the Viettel Group of companies include Dense Wavelength Division Multiplexing ("DWDM") systems for expanding the fiber optic cable network capacity without laying additional fiber optic cables.

In Singapore, the Group supplied and installed a video transmitter and receiver, data transceiver, 19" rack and device surge protection for SingTel. The Group also supplied M1 an ECI equipment testbed. For another repeat customer, Huawei International Pte Ltd, the Group supplied an Ethernet Port Replicator with management software as well as Optical Distribution Frame hardware and accessories.

Ntegrator also secured a beachhead with a prominent new customer, SMRT Light Rail, with the design, manufacture, installation, testing and commissioning of an ECI system that links 13 operating LRT stations to the depot at Bt Panjang LRT station.

In line with our new strategy of increasing project management and maintenance business as a percentage of project sales, the Group has made good progress. We won several new maintenance contracts with project clients in Singapore and Indo-China, reflecting their confidence in Ntegrator's expertise and proven track record in high-tech infrastructure, and voice communication systems as well as the Group's tested and reliable 24/7 maintenance services.

Under our maintenance contracts, the Group provides onsite and online maintenance and support services, supported by a 24-hour fault control hotline, hardware and software repair services, online CRM system services, 24-hour onsite support services and 24-hour remote modem dial-in services.

Going forward, these maintenance contracts will provide a steady and growing stream of recurring income to the Group.

Corporate Governance Report

13

The Company is committed to maintaining a high standard of corporate governance and in ensuring that effective self-regulatory corporate practices are in place to protect the interests of its shareholders and maximise long-term shareholder value. These include an experienced and visionary Board of Directors supported by Board Committees as well as an effective and sound system of internal controls and risk management programme.

As required by Rules of Catalist 710 of the Listing Manual Section B: Rules of the SGX-ST (the "Catalist Rules"), this statement outlines the Company's corporate governance processes with specific reference to the Code of Corporate Governance 2005 ("the Code"). Other than deviations that are explained in this statement, the Company has complied with the principles of the Code.

Board of Directors

Principle 1: The Board's Conduct of Affairs

The principal functions of the Board are:

- a. approving the Group's key business strategies and financial objectives;
- b. approving the annual budget, major investments and divestments, and funding proposals;
- c. overseeing the processes for evaluating the adequacy of internal controls, risk management, financial reporting and compliance;
- d. to set the Company's values and standards to ensure obligations to shareholders are met;
- e. approving half year and full year accounts and announcements;
- f. review management performance; and
- g. assuming responsibility for corporate governance and risk management.

The Board has adopted internal guidelines that require Board approval, including appointment of directors, major funding and investment proposals as well as material capital expenditures. Management, together with Board Committees including the Audit Committee, the Nominating Committee and the Remuneration Committee support the Board in discharging its responsibilities. The roles and responsibilities of the Board Committees are set out separately in this report.

The Board conducts regular scheduled meetings during the year. Ad-hoc meetings are conducted to address significant issues or approve major transactions.

The Company's Articles of Association allow Board Meetings to be conducted by way of telephone conferencing or any other electronic means of communications.

The attendance of the directors at meetings of the Board and Board Committees, as well as the frequency of such meetings in FY2011 are summarised in the table below:

Name	Board		Audit Committee		Nominating Committee		Remuneration Committee	
	No. of meetings held	No. of meetings attended	No. of meetings held	No. of meetings attended	No. of meetings held	No. of meetings attended	No. of meetings held	No. of meetings attended

Corporate Governance Report

Board of Directors (Continued)

In 2011, all Independent Board members together with the Management attended a three day strategy retreat to foster relationships and interactions with Management through a robust exchange of ideas and views.

The Board of Directors is familiar with the Group's business and governance practices and has been briefed on their responsibilities as directors of a listed company. To keep abreast with developments in corporate, financial, legal and other compliance requirements, directors are encouraged to attend relevant training courses funded by the Company.

New directors appointed to the Board would be briefed on the Group's business activities and its strategic directions as well as statutory and other responsibilities as a director. Formal letters are issued upon appointment, to further explain their duties and obligations.

Principle 2: Board Composition and Guidance

The Board comprises eight directors, half of whom are independent. The Board consists of directors, who as a group, provide core competencies, such as business or management experience, industry knowledge, finance, strategic planning experience, customer-based experience and knowledge that are necessary and critical to meet the Group's objectives. Details of the directors' academic, professional qualification and other appointments are set out on pages 8 to 10 of the Annual Report.

The Nominating Committee ("NC") has reviewed the independence of each director for the financial year ended 31 December 2011 in accordance with the Code's definition of independence and is satisfied that more than one-third of the Board continues to be independent.

Non-executive Directors met twice yearly together with the internal and independent Auditor without the presence of the Management.

The Board composition is as follows:-

Executive Director

Han Meng Siew (Deputy Chairman)
Jimmy Chang Joo Whut (Managing Director)

Non-Executive Director

Bernard Chen Tien Lap (Chairman) *
Charles George St. John Reed *
Lai Chun Loong *
Lee Keen Whye *
Tay Koon Chuan
Loudon Frank McLean Owen
Zacchaeus Boon Suan Zin (Alternate to Loudon Frank McLean Owen)

* Independent Director

Principle 3: Chairman and Managing Director

The functions of Chairman, Deputy Chairman and the Managing Director are assumed by three individuals. The Chairman, Mr. Bernard Chen Tien Lap, is an Independent Director, while the Deputy Chairman, Mr. Han Meng Siew and the Managing Director, Mr. Jimmy Chang Joo Whut are Executive Directors.

There are distinct divisions of responsibilities between the Chairman, Deputy Chairman and the Managing Director, who are not related to one another. The Deputy Chairman and the Managing Director are the most senior executives in the Company and assume executive responsibilities for the Company's business while the Chairman assumes responsibility for the management of the Board. As the Chairman, Deputy Chairman and the Managing Director perform separate functions, authority and accountability are not compromised.

Nominating Committee (“NC”)

Principle 4: Board Membership

The NC comprises two independent and one non-executive director, namely –

Bernard Chen Tien Lap (Chairman) *
Charles George St. John Reed *
Tay Koon Chuan

* Independent Director

The key objectives of the NC are to ensure that there is a formal and transparent process in the nomination, appointment and re-appointment of directors to the Board and in the assessment of the effectiveness and contribution of the Board and its members to the welfare, strategic growth and development of the Company.

As a sub-committee of the Board, the NC –

- recommends the re-nomination of directors retiring by rotation annually;
- determines the independence of Board members and assesses the adequacy of Board members with multiple board representations;
- establishes the process for the selection and appointment of new directors;
- reviews Board structure, size and composition;
- recommends to the Board the continuation in service of any directors who has reached the age of 70; and
- assesses the effectiveness and performance of the Board and the contributions of Board members.

All directors subject themselves to re-nomination and re-election at least once every three (3) years. Pursuant to the Article 99 (2) of the Company’s Articles of Association, Mr. Bernard Chen Tien Lap, Mr. Han Meng Siew and Mr. Lee Keen Whye will retire by rotation at the forthcoming AGM.

The NC has recommended the nominations of the directors retiring by rotation for re-election at the forthcoming AGM. In considering the nomination, the NC took into account the contribution of the directors with reference to their attendance and participation at Board and other Board committee meetings as well as the proficiency with which they have discharged their responsibilities.

Principle 5: Board Performance

The Board has undertaken a formal evaluation of its own performance.

The performance evaluation of the operation and effectiveness of the Board as a whole was conducted using a questionnaire. The areas reviewed comprised –

- board composition;
- information to the Board;
- Board procedures;
- Board accountability;
- CEO/top management; and
- Standards of conduct.

Separate assessment of the roles and responsibilities of Board Committees were carried by the Audit Committee (“AC”), Remuneration Committee (“RC”) and NC.

Corporate Governance Report

Principle 6: Access to Information

To ensure that the Board is able to fulfill its responsibilities, reports on the Company's performance and business activities are provided to every Board member. The Board also receives regular updates of on-going projects and other business matters.

All directors have direct access to senior management and to the Company Secretary. The Company Secretary attends board meetings, and board committee meetings, where required. The Company Secretary ensures that board procedures are followed and that applicable rules and regulations are complied with. The appointment and removal of the Company Secretary are subject to the Board's approval.

The directors, whether individually or collectively, may in furtherance of their duties, seek and obtain independent professional advice as and when the need arises, at the expense of the Company.

Remuneration Committee ("RC")

Principle 7: Procedures for Developing Remuneration Policies

Principle 8: Level and Mix of Remuneration

Principle 9: Disclosure on Remuneration

The RC comprises three members, all of whom are independent Directors. The composition of the RC is as follows:-

Bernard Chen Tien Lap (Chairman) *
Charles George St. John Reed *
Lai Chun Loong *

* Independent Director

The role of the RC is to review and recommend to the Board a framework of remuneration for the Board of Directors and key executives of the Group. It determines specific remuneration packages and reviews the terms of service for each Executive Director and key Executive Officers of the Company. It also approves guidelines on salary, bonus, and other terms and conditions for senior management, as well as the granting of share options and performance share plan in accordance with the rules of the Company's Share Option Scheme and Ntegrator Performance Share Plan.

In setting remuneration packages for Executive Directors and key executives of the Group, the pay and employment conditions within the industry and in comparable companies are taken into account to maintain an appropriate and competitive level of remuneration that will attract, retain and motivate key executives. The RC may seek external professional advice on compensation and other employment-related matters, as and when required.

Executive Directors are on service contracts, which are subject to annual review. The RC is of the view that the Executive Directors' service contracts are not excessively long or include onerous removal clauses.

The Deputy Chairman and the Managing Director who are on service contracts do not receive directors' fees. Their remuneration packages comprise of salaries, annual wage supplement, options, performance shares and a share of profits based on the Group's performance. The performance-related award is to align their interests with those of the shareholders and link rewards to corporate and individual performance.

Independent and Non-Executive Directors receive directors' fees, which take into account their level of contribution and responsibilities. These fees are subject to shareholders' approval at the Annual General Meeting.

No director is involved in determining his own remuneration.

There were no employees who were immediate family members of any director or the MD for the financial year ended 31 December 2011.

Principle 10: Accountability

The Board is accountable to the shareholders while Management is accountable to the Board. Management presents half-year and full-year financial statements to the Audit Committee and the Board for review and approval. The Board approves the results and authorises the release of results to SGX-ST and the public via SGXNET.

Corporate Governance Report

Principle 11: Audit Committee (“AC”)

The AC comprises 4 directors, a majority of whom are independent Directors. The composition of the AC is as follows:-

Charles George St. John Reed (Chairman) *
Lai Chun Loong *
Lee Keen Whye *
Loudon Frank McLean Owen
Zacchaeus Boon Suan Zin (Alternate to Loudon Frank McLean Owen)

* Independent Director

All AC members possess extensive business and financial management experience at both senior management and board levels.

The AC reviews the scope of work, as set out in section 201B(5) of the Companies Act, Cap 50, of both internal and independent auditors and the assistance given by the Company’s officers to the independent auditors. It met with the Company’s internal and independent auditors to review their audit plans and discuss the results of their respective examinations and their evaluation of the Group’s operations and system of internal accounting controls. The AC met the internal and independent auditors without the presence of the management. The AC also reviews transactions with interested persons and related parties. It recommends the appointment or re-appointment of independent auditors, reviews audit fees and non-audit services performed by the independent auditors.

The AC has full access to and co-operation of Management and full discretion to invite any Director or executive officer to attend its meetings.

The AC performed independent reviews of the financial statements of the Company and the Group. The AC also undertook a review of the nature and extent of all non-audit services performed by the independent auditors to establish whether their independence had in any way been compromised. The independent auditor had not provided any non-audit services in FY 2011.

In relations to Catalist Rule 712, 715 and 716, the Company had complied to the appointment and re-appointment of independent auditors.

The AC has explicit authority to investigate any matter within its terms of reference, full access to and co-operation by management and full discretion to invite any personnel to attend its meetings.

The Company has a Whistle-Blowing Policy which serves to encourage and to provide a channel for staff of the Group to report and to raise in good faith and in confidence, any concerns about possible improprieties in matters of financial reporting or other matters. This Whistle-Blowing Policy is to ensure that arrangements in place, for the independent investigation of such matters and concerns raised on financial or other improprieties, and for appropriate follow-up action.

The objectives of the Whistle-Blowing Policy are:

- to communicate the Company’s expectation of employees of the Group in detecting fraudulent activities or malpractices;
- to guide employees on the course of action when addressing their concerns or suspicions of fraudulent activities or malpractices;
- to provide a process for investigations and management reporting; and
- to establish the policies for protecting whistle-blowers against reprisal by any person internal or external of the Group.

Principle 12: Internal Controls

The Board is responsible for the governance of risk and ensures that Management maintains a sound system of risk management and internal controls to safeguard shareholders' interest and Company's assets.

The Board, with the concurrence of the AC, is of the opinion that, in the absence of any evidence to the contrary, the Group's internal controls are adequate in addressing material financial, operational and compliance risks based on –

- internal controls established and maintained by the Group;
- confirmation by the Managing Director and Financial Controller;
- reports issued by the internal and independent auditors; and
- regular reviews performed by the Management, various Board Committees and the Board.

The Board notes that no system of internal controls can provide absolute assurances against the occurrence of material errors, poor judgment in decision making, human error, fraud or other irregularities.

The Board recognises the importance of establishing a formal Enterprise Risk Management Framework to facilitate the governance of risks and monitoring the effectiveness of internal controls. Accordingly, to facilitate the compliance of Catalist Rule 1204(10) of the Listing Manual, the Board has tasked Management to engage an external consultant to review and set up an Enterprise Risk Management Framework in FY2012.

Principle 13: Internal Audit ("IA")

The Group's IA function is outsourced to an independent service provider.

The Company's internal auditor conducted a review of the effectiveness of the Company's material internal controls, including financial, operational and compliance controls, and risk management. Material non-compliance or weaknesses in internal controls and recommendations for improvement are reviewed by the AC.

The risk management process and system of internal controls of the Company are designed to manage, rather than eliminate, the risk of failure to achieve the Group's strategic objectives. It should be recognised that such systems can only provide reasonable but not absolute assurance against material misstatement or loss.

The IA is an independent function that reports to the AC. The scope of work covers all business and support functions in the Company and its subsidiaries. The AC reviews and approves the annual IA plans and resources to ensure that the IA unit has the necessary resources to adequately perform its functions. The AC reviews the IA activities on a half-yearly basis and the adequacy of the IA function on an annual basis.

Principles 14 & 15: Communications with Shareholders

Price-sensitive information relating to the Group is released through SGXNET and is available to public on the SGX website. The interim and full year financial results and annual reports issued within the prescribed period are also released to the public via the SGXNET. The Company's Annual Report is available at its website www.ntegrator.com

All shareholders of the Group receive the Annual Report and notice of Annual General Meeting, within the statutory period. At Annual General Meetings, shareholders are given the opportunity to voice their views and to direct questions regarding the Group to senior management and directors, including the Chairman of each of the Board Committee.

All directors are encouraged to be present at all general meetings of the Company. The independent auditors will be present at the forthcoming Annual General Meeting.

SECURITIES TRANSACTIONS

The Group has adopted a Code of Best Practices for Dealings in Securities (the "Code") which defines the Group's policy on dealings in securities of the Company and implications of Insider Trading. To comply with Rule 1204 (19)(b)(c) and in line with our Code, directors and key officers of the Group who have access to price-sensitive and confidential information are not permitted to deal in securities of the Company on short-term considerations and during the periods commencing one month before the announcement of the Group's annual or half-year results and ending on the date of the announcement of such results, or when they are in possession of unpublished price-sensitive information on the Group.

Directors and key officers are required to confirm annually that they have complied with the Code with regards to their securities transactions.

RISK MANAGEMENT POLICIES AND PROCESSES

The Company's risk management policies are summarised as follows:-

Technological Changes

We are dependent on principals to improve and innovate products to meet the changing market trends. We will study the market trends and assess customers' changing needs and obtain new technology-based products to meet their demands. We will also keep abreast of the developments in our industry and the technical know-how.

Political, Regulatory and Economic

The unexpected changes in the regulatory requirements, political instability and economic uncertainties in the countries in which we have a presence may affect our revenue and margin. We will assess this inherent risk on a regular basis.

Credit Risk

We are exposed to credit risk and such risk is managed through assessment of customer credit-worthiness. Special payment arrangements are reviewed on a case-by-case basis and will be secured by export letters of credits.

Key Personnel

Our business performance depends on the business strategy developed by the management. The inability to retain qualified personnel may affect our business performance given that we are a service provider. We offer competitive remuneration packages, employee's share option scheme and performance share plan to our staff as well as a challenging working environment.

MATERIAL CONTRACTS

Other than the Service Agreements with each of our Executive Directors, Messrs Han Meng Siew and Jimmy Chang Joo Whut, there were no material contracts in the financial year 2011 which are required to be disclosed under Catalist Rule 1204(8).

INTERESTED PERSON TRANSACTIONS

There were no transactions with Interested Persons in the financial year 2011.

SPONSORS

There were no non-sponsor fees paid to the Sponsor, Asian Corporate Advisors Pte Ltd in the financial year 2011.

Share options

The Company implemented the Ntegrator Share Option Scheme (the "Scheme") in 2005 for granting of options to full-time employees and directors of the Company and its subsidiaries. The total number of ordinary shares over which the Company may grant under the Scheme shall not exceed 15% of the issued share capital of the Company on the day preceding the date of grant.

The Scheme is administered by the Remuneration Committee ("RC") which comprises three directors, namely Bernard Chen Tien Lap, Lai Chun Loong and Charles George St. John Reed.

Directors' Report

For The Financial Year Ended 31 December 2011

Share options (Continued)

The exercise price for each ordinary share in respect of which an option is exercisable shall be determined by the RC as follows:

- (i) at a price equal to the prevailing market price of the ordinary shares of the Company based on the last dealt price per share as indicated in the daily official list or any publication published by the Singapore Exchange Securities Trading Limited ("SGX-ST") for the five consecutive trading days immediately preceding the date of grant of that option (the "Market Price"); or
- (ii) at a price which is set at a discount to the Market Price provided that the maximum discount shall not exceed 20% of the Market Price.

Options granted with the exercise price set at Market Price shall only be exercisable after 12 months of the date of grant of that option. Options granted with exercise price set at a discount to Market Price shall only be exercisable after 24 months from the date of grant of that option. All options granted shall be exercised before the end of 120 months (or 60 months where the participant is a non-executive director) of the date of grant of that option and subject to such other conditions as may be introduced by the RC from time to time.

Details of the options to subscribe for ordinary shares of the Company granted to directors, executive officers and employees of the Group pursuant to the Scheme described above are as follows:

- ² The options granted to these directors are exercisable from 25 August 2009 to 25 August 2014 at the exercise price of S\$0.04.

Since the commencement of the Scheme till the end of the financial year:

- No options have been granted to the controlling shareholders of the Company or their associates (as defined in the Listing Manual of SGX-ST);
- No participant other than Han Meng Siew, Jimmy Chang Joo Whut and Kenneth Sw Chan Kit as mentioned above has received 5% or more of the total options available under the Scheme;
- No options that entitle the holder to participate, by virtue of the options, in any share issue of any other corporation have been granted; and
- No options have been granted at a discount.

There were no options granted during the financial year to subscribe for unissued shares of the Company and its subsidiaries.

No shares have been issued during the financial year by virtue of the exercise of options to take up unissued shares of the Company and its subsidiaries.

Performance share plan

The Company implemented the Ntegrator Performance Share Plan (the "PSP") in 2010 which was approved at the extraordinary general meeting ("EGM") held on 12 February 2010. The PSP provides for the award of fully paid-up ordinary shares in the share capital of the Company, free of charge to selected employees of the Company and/or its subsidiaries, including the directors of the Company, and other selected participants when and after pre-determined performance target(s) have been accomplished within the performance period.

The PSP is a share incentive scheme which will allow the Company, *inter alia*, to target specific performance objectives and to provide an incentive for participants to achieve these targets. The directors believe that the PSP will help to achieve the following positive objectives:

- (a) incentivise employees to excel in their performance and encourage greater dedication and loyalty to the Group;
- (b) attract and retain employees whose contributions are important to the long-term growth and profitability of the Group;
- (c) recognise and reward past contributions and services and motivate employees to continue to strive for the Group's long-term prosperity; and
- (d) develop a participatory style of management which instils loyalty and a stronger sense of identification with the long-term goals of the Group.

The PSP is administered by the Remuneration Committee ("RC") which comprises three directors, namely Bernard Chen Tien Lap, Lai Chun Loong and Charles George St. John Reed.

The PSP shall continue in force at the discretion of the RC, subject to a maximum period of ten (10) years commencing on the date on which the PSP was adopted by the Company in EGM, provided always that the PSP may continue beyond the above stipulated period with the approval of Shareholders by ordinary resolution in general meeting, and of any relevant authorities which may then be required.

Audit committee

The Audit Committee (the "AC") comprises four members, all of whom are non-executive directors. The members of the AC at the end of the financial year and at the date of the report were as follows:

Charles George St. John Reed	Chairman, Independent
Lai Chun Loong	Independent
Lee Keen Whye	Independent
Loudon Frank McLean Owen	
Zacchaeus Boon Suan Zin	(Alternate to Loudon Frank McLean Owen)

The AC carried out its functions in accordance with Section 201B (5) of the Singapore Companies Act, including the following:

- Reviews the audit plans of the internal and independent auditors of the Company and ensures the adequacy of the Company's system of accounting controls and the co-operation given by the Company's management to the internal and independent auditors;
- Reviews the annual financial statements and the independent auditor's report on the annual financial statements of the Company before their submission to the Board of Directors;
- Reviews effectiveness of the Company's material internal controls, including financial, operational and compliance controls and risk management via reviews carried out by the internal auditor;
- Reviews the assistance given by management to the independent auditor, and discusses problems and concerns, if any, arising from statutory audit, with the management;
- Meets with the internal and independent auditors, other committees, and management in separate executive sessions to discuss any matters that these groups believe should be discussed privately with the AC;
- Reviews legal and regulatory matters that may have a material impact on the financial statements, related compliance policies and programmes and any reports received from regulators;
- Reviews the cost effectiveness, independence and objectivity of the independent auditor;
- Reviews the nature and extent of non-audit services provided by the independent auditor;
- Recommends to the Board of Directors the independent auditor to be nominated, approves the compensation of the independent auditor, and reviews the scope and results of the audit;
- Reports actions and minutes of the AC to the Board of Directors with such recommendations as the AC considers appropriate; and
- Reviews interested person transactions in accordance with the requirements of the SGX-ST's Listing Manual.

The AC has recommended to the Board that the independent auditor, Nexia TS Public Accounting Corporation, be nominated for re-appointment at the forthcoming Annual General Meeting of the Company.

Statement by Directors

29

For The Financial Year Ended 31 December 2011

In the opinion of the directors,

- (a) the balance sheet of the Company and the consolidated financial statements of the Group as set out on pages 31 to 73 are drawn up so as to give a true and fair view of the state of affairs of the Company and of the Group as at 31 December 2011 and of the results of the business, changes in equity and cash flows of the Group for the financial year then ended; and
- (b) at the date of this statement, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they fall due.

The Board of Directors has, on the date of this statement, authorised these financial statements for issue.

On behalf of the Board of Directors,

Han Meng Siew

Independent Auditor's Report to the Members of Ntegrator International Ltd.

Report on the Financial Statements

We have audited the accompanying financial statements of Ntegrator International Ltd. (the "Company") and its subsidiaries (the "Group"), which comprise the consolidated balance sheet of the Group and the balance sheet of the Company as at 31 December 2011, the consolidated statement of comprehensive income, statement of changes in equity and statement of cash flows of the Group for the financial year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Singapore Companies Act, (the "Act") and Singapore Financial Reporting Standards, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair profit and loss accounts and balance sheets and to maintain accountability of assets.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Singapore Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements of the Group and the balance sheet of the Company are properly drawn up in accordance with the provisions of the Act and Singapore Financial Reporting Standards so as to give a true and fair view of the state of affairs of the Group and of the Company as at 31 December 2011, and the results, changes in equity and cash flows of the Group for the financial year ended on that date.

Report on other Legal and Regulatory Requirements

In our opinion, the accounting and other records required by the Act to be kept by the Company and by the subsidiary incorporated in Singapore of which we are the auditors, have been properly kept in accordance with the provisions of the Act.

Notes to the Financial Statements

35

For The Financial Year Ended 31 December 2011

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

The financial statements of the Group and the Company for the financial year ended 31 December 2011 were authorised for issue in accordance with a resolution of directors on 23 March 2012.

1. General information

The Company is listed on the Singapore Exchange Securities Trading Limited - Catalist and incorporated and domiciled in Singapore. The address of its registered office is at 4 Leng Kee Road, #06-04, SIS Building, Singapore 159088.

The principal activity of the Company is that of investment holding. The principal activities of its subsidiaries are disclosed in Note 16 to the financial statements.

2. Summary of significant accounting policies

2.1 Basis of preparation

These financial statements have been prepared in accordance with Singapore Financial Reporting Standards ("FRS"). The financial statements have been prepared under the historical cost convention, except as disclosed in the accounting policies below.

The preparation of financial statements in conformity with FRS requires management to exercise its judgment in the process of applying the Group's accounting policies. It also requires the use of certain critical accounting estimates and assumptions. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in Note 3.

Interpretations and amendments to published standards effective in 2011

On 1 January 2011, the Group adopted the new or amended FRS and Interpretations to FRS ("INT FRS") that are mandatory for application from that date. Changes to the Group's accounting policies have been made as required, in accordance with the transitional provisions in the respective FRS and INT FRS.

The adoption of these new or amended FRS and INT FRS did not result in substantial changes to the Group's and Company's accounting policies and had no material effect on the amounts reported for the current or prior financial years.

2.2 Revenue recognition

Revenue comprises the fair value of the consideration received or receivable for the project sales and rendering of services in the ordinary course of the Group's activities. Revenue is presented, net of value-added tax, rebates and discounts, and after eliminating sales within the Group.

The Group recognises revenue when the amount of revenue and related cost can be reliably measured, it is probable that the collectability of the related receivables is reasonably assured and when the specific criteria of each Group's activities are met as follows:

(a) *Project sales*

- (i) Revenue is recognised upon the transfer of risk and rewards of ownership of the goods to the customers, which generally coincide with delivery and acceptance of the goods sold. Revenue is not recognised to the extent where there are significant uncertainties regarding recovery of the consideration due, associated costs or the possible of return of goods.

Notes to the Financial Statements

For The Financial Year Ended 31 December 2011

2. Summary of significant accounting policies (Continued)

2.2 Revenue recognition (Continued)

(a) *Project sales (Continued)*

- (ii) System integration services substantially involve the procurement, design, integration and installation of voice, video and data communication equipment and networks. Revenue is recognised upon successful installation and acceptance of the project by the customer. For a project which is to be completed in stages, revenue is recognised upon successful installation of each stage and acceptance of the project by the customer. An expected loss on the project is recognised as an expense immediately when it is probable that total project costs will exceed total project revenue.

Please refer to paragraph "Contract work in-progress" for the accounting policy for revenue from contract works.

(b) *Project management and maintenance revenue*

Project management revenue is recognised upon rendering of the service to the customer and upon completion of the project.

Maintenance revenue is recognised upon rendering of the service to the customer over the duration of maintenance contracts. Maintenance revenue that is billed in advance of the services being rendered is deferred on the balance sheet as deferred revenue.

(c) *Interest income*

Interest income is recognised using the effective interest method.

2.3 Government grants

Grants from the government are recognised as a receivable at their fair value when there is reasonable assurance that the grant will be received and the Group will comply with all the attached conditions.

Government grants receivable are recognised as income over the periods necessary to match them with the related costs which they are intended to compensate, on a systematic basis. Government grants relating to expenses are shown separately as other income.

Government grants relating to assets are deducted against the carrying amount of the assets.

2.4 Group accounting

(a) *Subsidiaries*

(i) *Consolidation*

Subsidiaries are entities (including special purpose entities) over which the Group has power to govern the financial and operating policies so as to obtain benefits from its activities, generally accompanied by a shareholding giving rise to a majority of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity. Subsidiaries are consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date on which control ceases.

In preparing the consolidated financial statements, transactions, balances and unrealised gains on transactions between group entities are eliminated. Unrealised losses are also eliminated but are considered an impairment indicator of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Notes to the Financial Statements

37

For The Financial Year Ended 31 December 2011

2. Summary of significant accounting policies (Continued)

2.4 Group accounting (Continued)

(a) *Subsidiaries (Continued)*

(i) *Consolidation (Continued)*

Non-controlling interests are that part of the net results of operations and of net assets of a subsidiary attributable to the interests which are not owned directly or indirectly by the equity holders of the Company. They are shown separately in the consolidated statement of comprehensive income, statement of changes in equity and balance sheet. Total comprehensive income is attributed to the non-controlling interests based on their respective interests in a subsidiary, even if this results in the non-controlling interests having a deficit balance.

(ii) *Acquisitions*

The acquisition method of accounting is used to account for business combinations by the Group.

The consideration transferred for the acquisition of a subsidiary or business comprises the fair value of the assets transferred, the liabilities incurred and the equity interests issued by the Group. The consideration transferred also includes the fair value of any contingent consideration arrangement and the fair value of any pre-existing equity interest in the subsidiary.

Acquisition-related costs are expensed as incurred.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date.

On an acquisition-by-acquisition basis, the Group recognises any non-controlling interest in the acquiree at the date of acquisition either at fair value or at the non-controlling interest's proportionate share of the acquiree's net identifiable assets.

The excess of (i) the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the (ii) fair value of the net identifiable assets acquired is recorded as goodwill.

(iii) *Disposals*

When a change in the Group ownership interest in a subsidiary results in a loss of control over the subsidiary, the assets and liabilities of the subsidiary including any goodwill are derecognised. Amounts previously recognised in other comprehensive income in respect of that entity are also reclassified to profit or loss or transferred directly to retained earnings if required by a specific Standard.

Any retained equity interest in the entity is remeasured at fair value. The difference between the carrying amount of the retained interest at the date when control is lost and its fair value is recognised in profit or loss.

Please refer to the paragraph "Investments in subsidiaries" for the accounting policy on investments in subsidiaries in the separate financial statements of the Company.

(b) *Transactions with non-controlling interests*

Changes in the Group's ownership interest in a subsidiary that do not result in a loss of control over the subsidiary are accounted for as transactions with equity owners of the Company. Any difference between the change in the carrying amounts of the non-controlling interest and the fair value of the consideration paid or received is recognised within equity attributable to the equity holders of the Company.

2. Summary of significant accounting policies (Continued)

2.5 Property, plant and equipment

(a) *Measurement*

(i) *Property, plant and equipment*

Property, plant and equipment are initially recognised at cost and subsequently carried at cost less accumulated depreciation and accumulated impairment losses.

(ii) *Components of costs*

The cost of an item of property, plant and equipment initially recognised includes its purchase price and any cost that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

(b) *Depreciation*

Depreciation on property, plant and equipment is calculated using the straight-line method to allocate their depreciable amounts over their estimated useful lives as follows:

	<u>Useful lives</u>
Office equipment	5 years
Computers	3 years
Telephones	5 years
Software	3 years
Motor vehicle	10 years
Demo equipment	2 years
Furniture	5 years
Fittings	2 years

The residual values, estimated useful lives and depreciation method of property, plant and equipment are reviewed, and adjusted as appropriate, at each balance sheet date. The effects of any revision are recognised in profit or loss when the changes arise.

Fully depreciated assets still in use are retained in the financial statements.

(c) *Subsequent expenditure*

Subsequent expenditure relating to property, plant and equipment that has already been recognised is added to the carrying amount of the asset only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repair and maintenance expenses are recognised in profit or loss when incurred.

(d) *Disposal*

On disposal of an item of property, plant and equipment, the difference between the disposal proceeds and its carrying amount is recognised in profit or loss within "Other losses – net".

Notes to the Financial Statements

39

For The Financial Year Ended 31 December 2011

2. Summary of significant accounting policies (Continued)

2.6 Intangible assets

Costs directly attributable to the development activities are capitalised as intangible assets only when technical feasibility of the project is demonstrated, the Group has an intention and ability to complete and use the system and the costs can be measured reliably. Such costs include purchases of materials and services and payroll-related costs of employees directly involved in the project. Research costs are recognised as an expense when incurred.

Development costs are initially capitalised at cost and subsequently carried at cost less accumulated amortisation and accumulated impairment losses. These costs are amortised to profit or loss using the straight-line method over their estimated useful lives of three to five years.

The amortisation period and amortisation method of intangible assets are reviewed at least at each balance sheet date. The effects of any revision are recognised in profit or loss when the changes arise.

2.7 Borrowing costs

Borrowing costs are recognised in profit or loss using the effective interest method.

2.8 Contract work in-progress

Contract work in-progress refers to system integration services that are not completed, delivered and accepted by customers as at the balance sheet date.

When the outcome of a construction contract can be estimated reliably, contract revenue and contract costs are recognised as revenue and expenses respectively by reference to the stage of completion of the contract activity at the balance sheet date ("percentage-of-completion method"). When the outcome of the contract work cannot be estimated reliably, contract revenue is recognised to the extent of contract costs incurred that are likely to be recoverable. When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately.

Contract revenue comprises the initial amount of revenue agreed in the contract and variations in the contract work and claims that can be measured reliably. A variation or a claim is recognised as contract revenue when it is probable that the customer will approve the variation or negotiations have reached an advanced stage such that it is probable that the customer will accept the claim.

The stage of completion is measured by reference to the successful installation or completion and acceptance by customer. Costs incurred during the financial year in connection with future activity on a contract are excluded from the costs incurred to date when determining the stage of completion of a contract. Such costs are shown as contract work in-progress on the balance sheet unless it is not probable that such contract costs are recoverable from the customers, in which case, such costs are recognised as an expense immediately.

At the balance sheet date, the cumulative costs incurred plus recognised profit (less recognised loss) on each contract is compared against the progress billings. Where the cumulative costs incurred plus the recognised profits (less recognised losses) exceed progress billings, the balance is presented as due from customers on contract work in-progress within "trade and other receivables". Where progress billings exceed costs incurred plus recognised profits (less recognised losses), the balance is presented as due to customers on contract work in-progress within "trade and other payables".

Progress billings not yet paid by customers and retentions by customers are included within "trade and other receivables". Advances received are included within "trade and other payables".

2.9 Investments in subsidiaries

Investments in subsidiaries are carried at cost less accumulated impairment losses in the Company's balance sheet. On disposal of investments in subsidiaries, the difference between disposal proceeds and the carrying amounts of the investments are recognised in profit or loss.

Notes to the Financial Statements

For The Financial Year Ended 31 December 2011

40

2. Summary of significant accounting policies (Continued)

2.10 Impairment of non-financial assets

Intangible assets, property, plant and equipment and investments in subsidiaries are tested for impairment whenever there is any objective evidence or indication that these assets may be impaired.

For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash inflows that are largely independent of those from other assets. If this is the case, the recoverable amount is determined for the cash-generating-unit ("CGU") to which the asset belongs.

If the recoverable amount of the asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount.

The difference between the carrying amount and recoverable amount is recognised as an impairment loss in profit or loss.

An impairment loss for an asset is reversed if, and only if, there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. The carrying amount of this asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortisation or depreciation) had no impairment loss been recognised for the asset in prior years.

A reversal of impairment loss for an asset is recognised in profit or loss.

2.11 Financial assets

(a) *Classification*

The Group classifies its financial assets as loans and receivables. The classification depends on the nature of the asset and the purpose for which the assets were acquired. Management determines the classification of its financial assets at the initial recognition.

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are presented as current assets, except for those expected to be realised later than 12 months after the balance sheet date which are presented as non-current assets. Loans and receivables are presented as "trade and other receivables" and "cash and cash equivalents" on the balance sheet.

(b) *Recognition and derecognition*

Regular way purchases and sales of financial assets are recognised on trade date – the date on which the Group commits to purchase or sell the asset.

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership.

On disposal of a financial asset, the difference between the carrying amount and the sale proceeds is recognised in the profit or loss. Any amount in other comprehensive income relating to that asset is transferred to profit or loss.

(c) *Initial measurement*

Financial assets are initially recognised at fair value plus transaction costs except for financial assets at fair value through profit or loss, which are recognised at fair value. Transaction costs for financial assets at fair value through profit or loss are recognised immediately as expenses.

Notes to the Financial Statements

41

For The Financial Year Ended 31 December 2011

2. Summary of significant accounting policies (Continued)

2.11 Financial assets (Continued)

(d) *Subsequent measurement*

Loans and receivables are subsequently carried at amortised cost using the effective interest method.

Interest income on financial assets is recognised separately in income.

(e) *Impairment*

The Group assesses at each balance sheet date whether there is objective evidence that loans and receivables are impaired and recognises an allowance for impairment when there is significant difficulties of the debtor, probability that the debtor will enter bankruptcy, and default or significant delay in payments.

The carrying amount of these assets is reduced through the use of an impairment allowance account which is calculated as the difference between the carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. When the asset becomes uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are recognised against the same line item in profit or loss.

The impairment allowance is reduced through profit or loss in a subsequent period when the amount of impairment loss decreases and the related decrease can be objectively measured. The carrying amount of the asset previously impaired is increased to the extent that the new carrying amount does not exceed the amortised cost had no impairment been recognised in prior periods.

(f) *Offsetting financial instruments*

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

2.12 Financial guarantees

The Company has issued corporate guarantees to banks for borrowings of its subsidiaries. These guarantees are financial guarantees as they require the Company to reimburse the banks if the subsidiaries fail to make principal or interest payments when due in accordance with the terms of their borrowings.

Financial guarantees are initially recognised at their fair values plus transaction costs in the Company's balance sheet.

Financial guarantees are subsequently amortised to profit or loss over the period of the subsidiaries' borrowings, unless it is probable that the Company will reimburse the bank for an amount higher than the unamortised amount. In this case, the financial guarantees shall be carried at the expected amount payable to the bank in the Company's balance sheet.

Intra-group transactions are eliminated on consolidation.

2.13 Borrowings

Borrowings are presented as current liabilities unless the Group has an unconditional right to defer settlement for at least 12 months after the balance sheet date, in which case they are presented as non-current liabilities.

Borrowings are initially recognised at fair value (net of transaction costs) and subsequently carried at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.

2.14 Trade and other payables

Trade and other payables represent liabilities of goods and services provided to the Group prior to the end of financial year which are unpaid. They are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

Trade and other payables are initially recognised at fair value, and subsequently carried at amortised cost using the effective interest method.

2.15 Fair value estimation of financial assets and liabilities

The fair values of current financial assets and liabilities carried at amortised cost approximate their carrying amounts.

2.16 Leases

(a) *When the Group is the lessee*

The Group leases certain plant and equipment and motor vehicle under finance leases and office space and warehouses under operating leases from non-related parties.

(i) *Lessee – Finance leases*

Leases where the Group assumes substantially all risks and rewards incidental to ownership of the leased assets are classified as finance leases.

The leased assets and the corresponding lease liabilities (net of finance charges) under finance leases are recognised on the balance sheet as plant and equipment and borrowings respectively, at the inception of the leases based on the lower of the fair value of the leased assets and the present value of the minimum lease payments.

Each lease payment is apportioned between the finance expense and the reduction of the outstanding lease liability. The finance expense is recognised in profit or loss on a basis that reflects a constant periodic rate of interest on the finance lease liability.

(ii) *Lessee – Operating leases*

Leases where substantially all risks and rewards incidental to ownership are retained by the lessors are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessors) are recognised in profit or loss on a straight-line basis over the period of the lease.

Contingent rents are recognised as an expense in profit or loss when incurred.

2.17 Inventories

Inventories are carried at lower of cost and net realisable value. Cost is determined using the weighted average method. Inventories comprise of materials and supplies to be consumed in the rendering of system integration services and project sales. Net realisable value is the estimated selling price in rendering of system integration services and project sales, less the applicable costs of conversion to complete the services and project, and applicable variable selling expenses.

2.18 Income taxes

Current income tax for current and prior periods is recognised at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date.

Deferred income tax is recognised for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

A deferred income tax liability is recognised on temporary differences arising on investments in subsidiaries, except where the Group is able to control the timing of the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

A deferred income tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised.

Deferred income tax is measured:

- (i) at the tax rates that are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date; and
- (ii) based on the tax consequence that will follow from the manner in which the Group expects, at the balance sheet date, to recover or settle the carrying amounts of its assets and liabilities.

Current and deferred income taxes are recognised as income or expense in profit or loss.

2.19 Provisions for other liabilities and charges

Provisions for other liabilities and charges are recognised when the Group has a present legal or constructive obligation as a result of past events, it is more likely than not that an outflow of resources will be required to settle the obligation and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

2.20 Employee compensation

Employee benefits are recognised as an expense, unless the cost qualifies to be capitalised as an asset.

(a) *Defined contribution plans*

Defined contribution plans are post-employment benefit plans under which the Group pays fixed contributions into separate entities such as the Central Provident Fund on a mandatory, contractual or voluntary basis. The Group has no further payment obligations once the contributions have been paid.

(b) *Share-based compensation*

The Group operates an equity-settled, share-based compensation plan. The value of the employee services received in exchange for the grant of options is recognised as an expense with a corresponding increase in the share option reserve over the vesting period. The total amount to be recognised over the vesting period is determined by reference to the fair value of the options granted on the date of the grant. Non-market vesting conditions are included in the estimation of the number of shares under options that are expected to become exercisable on the vesting date. At each balance sheet date, the Group revises its estimates of the number of shares under options that are expected to become exercisable on the vesting date and recognises the impact of the revision of the estimates in profit or loss, with a corresponding adjustment to the share option reserve over the remaining vesting period.

2. Summary of significant accounting policies (Continued)

2.20 Employee compensation (Continued)

(b) *Share-based compensation (Continued)*

When the options are exercised, the proceeds received (net of transaction costs) and the related balance previously recognised in the share option reserve are credited to share capital account, when new ordinary shares are issued, or to the "treasury shares" account, when treasury shares are re-issued to the employees.

(c) *Performance shares*

Benefits to employees including the directors are provided in the form of share-based payment transactions, whereby employees render services in exchange for the shares or right over shares ("equity-settled transactions"). The fair value of the employee services rendered is determined by reference to the fair value of the shares awarded or granted, excluding the impact of any non-market vesting conditions. The amount is determined by reference to the fair value of the performance shares on the grant date. This fair value is recognised in profit or loss over the remaining vesting period of the share-based payment scheme, with the corresponding increase in equity. The value of charge is adjusted in profit or loss over the remaining vesting period to reflect expected and actual levels of shares vesting, with the adjustment made in equity.

(d) *Employees leave entitlement*

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the balance sheet date.

2.21 Currency translation

(a) *Functional and presentation currency*

Items included in the financial statements of each entity in the Group are measured using the currency of the primary economic environment in which the entity operates ("functional currency"). The financial statements are presented in Singapore Dollar, which is the functional currency of the Company.

(b) *Transactions and balances*

Transactions in a currency other than the functional currency ("foreign currency") are translated into the functional currency using the exchange rates at the dates of the transactions. Currency translation differences from resulting the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at the closing rates at the balance sheet date are recognised in profit or loss. However, in the consolidated financial statements, currency translation differences arising from borrowings in foreign currencies and other currency instruments designated and qualifying as net investment hedges and net investment in foreign operations, are recognised in other comprehensive income and accumulated in the currency translation reserve.

When a foreign operation is disposed of or any borrowings forming part of the net investment of the foreign operation are repaid, a proportionate share of the accumulated translation differences is reclassified to profit or loss, as part of the gain or loss on disposal.

Foreign exchange gains and losses that relate to borrowings are presented in the income statement within "finance cost". All other foreign exchange gains and losses impacting profit or loss are presented in the income statement within "Other losses – net".

Non-monetary items measured at fair values in foreign currencies are translated using the exchange rates at the date when the fair values are determined.

2.21 Currency translation (Continued)

(c) *Translation of Group entities' financial statements*

The results and financial position of all the Group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (i) Assets and liabilities are translated at the closing exchange rates at the reporting date;
- (ii) Income and expenses are translated at average exchange rates (unless the average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated using the exchange rates at the dates of the transactions); and
- (iii) All resulting currency translation differences are recognised in other comprehensive income and accumulated in the currency translation reserve.

2.22 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the executive committee whose members are responsible for allocating resources and assessing performance of the operating segments.

A business segment is a distinguishable component of the Group engaged in providing products or services that are subject to risks and returns that are different from those of other business segments. A geographical segment is a distinguishable component of the Group engaged in providing products or services within a particular economic environment that is subject to risks and returns that are different from those of segments operating in other economic environments.

2.23 Cash and cash equivalents

For the purpose of presentation in the consolidated statement of cash flows, cash and cash equivalents include cash on hand, deposits with financial institutions which are subject to an insignificant risk of change in value and bank overdrafts. Bank overdrafts are presented as current borrowings on the balance sheet.

2.24 Share capital and treasury shares

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of new ordinary shares are deducted against the share capital account.

When any entity within the Group purchases the Company's ordinary shares ("treasury shares"), the consideration paid including any directly attributable incremental cost is presented as a component within equity attributable to the Company's equity holders, until they are cancelled, sold or reissued.

When treasury shares are subsequently cancelled, the cost of treasury shares are deducted against the share capital account if the shares are purchased out of capital of the Company, or against the retained profits of the Company if the shares are purchased out of earnings of the Company.

When treasury shares are subsequently sold or reissued pursuant to the employee share option scheme, the cost of treasury shares is reversed from the treasury share account and the realised gain or loss on sale or reissue, net of any directly attributable incremental transaction costs and related income tax, is recognised in the capital reserve.

2.25 Dividends to Company's shareholders

Dividends to the Company's shareholders are recognised when the dividends are approved for payment.

3. Critical accounting estimates, assumptions and judgements

Estimates, assumptions and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

3.1 Critical accounting estimates and assumptions

(i) *Impairment of loans and receivables*

Management reviews its loans and receivables for objective evidence of impairment at least quarterly. Significant financial difficulties of the debtor, the probability that the debtor will enter bankruptcy, and default or significant delay in payments are considered objective evidence that a receivable is impaired. In determining this, management makes judgement as to whether there is observable data indicating that there has been a significant change in the payment ability of the debtor, or whether there have been significant changes with adverse effect in the technological, market, economic or legal environment in which the debtor operates in.

Where there is objective evidence of impairment, management makes judgement as to whether an impairment loss should be recorded as an expense. In determining this, management uses estimates based on historical loss experience for assets with similar credit risk characteristics. The methodology and assumptions used for estimating both the amount and timing of future cash flows are reviewed regularly to reduce any differences between the estimated loss and actual loss experience. The carrying value of trade receivables at the end of the reporting year was S\$23,312,000 (2010: S\$31,991,000).

(ii) *Contract work in-progress*

The Group uses the percentage-of-completion method to account for its contract revenue. The stage of completion is measured by reference to the successful installation or completion and acceptance by customer.

Significant assumptions are required to estimate the total contract costs and the recoverable variation works that affect the stage of completion and the contract revenue respectively. In making these estimates, management has relied on past experience and the work of specialists. The carrying value of contract work in-progress at the end of the reporting year was S\$4,029,000 (2010: S\$1,011,000).

If the revenue on uncompleted contracts work at the balance sheet date increases / decreases by 10% from management's estimates, the Group's revenue will increase / decrease by S\$9,326,777 and S\$7,630,999 respectively.

If the contract costs of uncompleted contract work to be incurred increase / decrease by 10% from management's estimates, the Group's profit will decrease / increase by S\$3,464,916 and S\$2,834,931 respectively.

(iii) *Impairment of non-financial assets*

Intangible assets and investments in subsidiaries are tested for impairment whenever there is any objective evidence or indication that these assets may be impaired.

The recoverable amounts of these assets and where applicable, cash-generating units, have been determined based on value-in-use calculations. These calculations require the use of estimates.

(a) Intangible asset

An intangible asset with a carrying value of S\$988,000 was fully written off in financial year ended 31 December 2010. The intangible asset is a Carpark Management System whereby the joint development with Cellular Systems International ("CSI") and Surbana Technologies have been shelved off as the possibility of future economic benefits is determined to be low and there is no intention to complete the development.

3. Critical accounting estimates, assumptions and judgements (Continued)

3.1 Critical accounting estimates and assumptions (Continued)

(iv) *Net realisable value of inventories*

A review is made periodically on inventory for excess inventory and declines in net realisable value below cost and an allowance is recorded against the inventory balance for any such declines. The review requires management to consider the future demand for the products. In any case the realisable value represents the best estimate of the recoverable amount and is based on the acceptable evidence available at the end of the reporting year and inherently involves estimates regarding the future expected realisable value. The usual considerations for determining the amount of allowance or write-down include technical assessment and subsequent events. In general, such an evaluation process requires significant judgement and materially affects the carrying amount of inventories at the end of the reporting year. Possible changes in these estimates could result in revisions to the stated value of the inventories. As at 31 December 2011, management has written off approximately S\$1,006,000 (2010: S\$45,000) of its slow-moving inventories. The carrying amount of inventories at the end of reporting year was S\$1,051,000 (2010: S\$1,833,000).

(b) Diluted earnings / (loss) per share

For the purpose of calculating diluted earnings / (loss) per share, profit / (loss) attributable to equity holders of the Company and the weighted average number of ordinary shares outstanding are adjusted for the effects of all dilutive potential ordinary shares. The Company has dilutive potential ordinary shares in respect of share options and warrants.

For share options and warrants, the weighted average number of shares on issue has been adjusted as if all dilutive share options and warrants were exercised. The number of shares that could have been issued upon the exercise of all dilutive share options and warrants less the number of shares that could have been issued at fair value (determined as the Company's average share price for the financial year) for the same total proceeds is added to the denominator as the number of shares issued for no consideration. No adjustment is made to the net profit.

Diluted earnings / (loss) per share attributable to the equity holders of the Company is calculated as follows:

	2011	2010
Net profit / (loss) used to determine diluted earnings per share (\$'000)	224	(6,963)
Weighted average number of ordinary shares outstanding for basic earnings per share ('000)	407,490	373,009

18. Intangible assets (Continued)

The intangible assets relate to development costs for communication systems for IP Clock and Server-based telephone system. IP Clock is a joint research and development project between IP Clock Ltd and Ntegrator Pte Ltd, a subsidiary of the Company. The research is funded by Singapore Israel Industrial Research and Development Foundation. The research aims to develop an application-agnostic, cost-effective, standards compliance synchronisation solution for Next Generation Networks, by creating a low cost clock recovery module using a low-cost oscillator and innovative clock recovery algorithms. Such solutions will help to improve the network synchronisation and to provide good quality traffic over the customers' mobile communication networks.

Carpark Management System relates to the joint development with Cellular Systems International ("CSI") and Surbana Technologies which is the development of centralised car park management system in Singapore as well as in the region. By customising CSI's central on-line credit card parking system, which is currently used in Israel to support cash card payment, Ntegrator Pte Ltd, will integrate the customised system with Surbana's Integrated Estate Management System to facilitate the centralised processing of parking transactions, monitoring of equipment status as well as data hosting. During the financial year 2010, the Group have fully written off the development costs of the Carpark Management System as management had assessed and determined that the possibility of future economic benefits is low and there is no intention to complete the development.

Bank borrowings	937		5,693
Finance lease liabilities (Note 21)	7		24
	944		5,717
Total borrowings	9,256		8,291

These trust receipts have a weighted average effective interest of 8% (2010: 8%) per annum.

The exposure of the borrowings of the Group to interest rate changes and the contractual repricing dates at the balance sheet dates are as follows:

	2011	Group	2010
	S\$'000		S\$'000
6 months or less	4,445		1,637
6 – 12 months	3,867		937
1 – 5 years	944		5,717
	9,256		8,291

(a) *Security granted*

Bank borrowings and bank overdraft are guaranteed by the Company. Finance leases of the Group are effectively secured over the leased plant and equipment, and motor vehicles (Note 17), as the legal title is retained by the lessor and will be transferred to the Group upon full settlement of the finance lease liabilities.

(b) *Fair value of non-current borrowings*

At balance sheet date, the fair values of non-current borrowings approximate their carrying amounts.

The fair values are determined from the cash flow analysis, discounted at market borrowing rate of an equivalent instrument of 3% to 5% (2010: 3% to 5%) per annum at the balance sheet date which directors expect to be available to the Group.

(c) *Breach of loan covenants*

Some of the Group's loan arrangements are subject to covenant clauses, whereby the Group is required to meet certain key financial ratios. The Group did not fulfil one of its bank's key financial ratios, as follows:

- (i) Tangible net worth of not less than S\$15,000,000 and consolidated tangible net worth of not less than S\$21,000,000

Notes to the Financial Statements

For The Financial Year Ended 31 December 2011

58

20. Borrowings (Continued)

(c) Breach of loan covenants (Continued)

Due to this breach of covenant clause, the bank is contractually entitled to request for immediate repayment of the outstanding loan amount of S\$320,433. The outstanding balance is presented as current liability as at 31 December 2011.

The management is cognisant of the above mentioned non-adherence of the financial ratios and has taken steps subsequent to balance sheet date to obtain the approval of the relevant bank to waive the above.

As of the date when these financial statements were approved by the Board of Directors, the bank had issued a waiver letter on the non-adherence of the financial ratios and had not requested early repayment of the loan.

21. Finance lease liabilities

The Group leases certain plant and equipment, and motor vehicle from non-related parties under finance lease. The lease agreements do not have renewal clauses but provide the Group with options to purchase the leased assets at nominal values at the end of the lease term.

22. Deferred income tax liabilities

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current income tax assets against current income tax liabilities and when the deferred income taxes relate to the same fiscal authority. The amounts, determined after appropriate offsetting, are shown on the balance sheets as follows:

For The Financial Year Ended 31 December 2011

22. Deferred income tax liabilities (Continued)

There is no movement in the deferred income tax during the financial year.

Deferred income tax assets are recognised for tax losses and capital allowances carried forward to the extent that realisation of the related tax benefits through future taxable profits is probable. The Group has unrecognised tax losses of S\$5,008,900 (2010: S\$5,573,728) and capital allowances of S\$Nil (2010: S\$246,276) at the balance sheet date which can be carried forward and used to offset against future taxable income subject to meeting certain statutory requirements by those companies with unrecognised tax losses and capital allowances in their respective countries of incorporation. The tax losses and capital allowances have no expiry date.

All issued ordinary shares are fully paid. There is no par value for these ordinary shares.

Fully paid ordinary shares carry one vote per share and carry a right to dividends as and when declared by the Company.

During the financial year, a total of 10,026,838 shares were issued due to exercise of warrants whereby 4,321,200 warrants were exercised and issued at S\$0.017 each and 5,705,638 warrants were exercised and issued at S\$0.02 each respectively.

In financial year 2010,

- (i) a total of 33,354,595 warrants were exercised and issued at S\$0.02 each;
- (ii) 11,348,553 shares were issued at S\$0.04 each pursuant to the Ntegrator Performance Share Plan; and
- (iii) 1,967,797 shares were issued at S\$0.036 each as script dividend.

The newly issued shares rank pari passu in all respects with the previously issued shares.

23. Share capital and treasury shares (Continued)

(a) *Treasury shares*

The Company did not acquire any of its new shares in the open market during the financial year. In financial year 2010, the Company acquired 251,000 of its new shares in the open market and the total amount paid to acquire the shares was S\$11,000. This was presented as a component within shareholders' equity.

(b) *Share warrants*

Share warrants outstanding at the end of the reporting year totalled 277,659,818 (2010: 287,686,656). These may be converted into shares at the conversion rate which are tabled below for each class of warrants for each ordinary shares of no par value before expiry date.

	<u>287,686,656</u>	<u>-</u>	<u>10,026,838</u>	<u>277,659,818</u>		

(c) *Share options*

The Company implemented the Ntegrator Share Option Scheme (the "Scheme") in 2005 for granting of options to its full-time employees and directors of the Company and its subsidiaries. The total number of ordinary shares over which the Company may grant under the Scheme shall not exceed 15% of the issued share capital of the Company on the day preceding the date of grant.

The Scheme is administered by the Remuneration Committee ("RC") which comprises three directors, namely Bernard Chen Tien Lap, Lai Chun Loong and Charles George St. John Reed.

The exercise price for each ordinary share in respect of which an option is exercisable shall be determined by the RC as follows:

- (i) at a price equal to the prevailing market price of the ordinary shares of the Company based on the last dealt price per share as indicated in the daily official list or any publication published by the Singapore Exchange Securities Trading Limited for the five consecutive trading days immediately preceding the date of grant of that option (the "Market Price"); or
- (ii) at a price which is set at a discount to the Market Price provided that the maximum discount shall not exceed 20% of the Market Price.

Options granted with the exercise price set at Market Price shall only be exercisable after 12 months of the date of grant of that option. Options granted with exercise price set at a discount to Market Price shall only be exercisable after 24 months from the date of grant of that option. All options granted shall be exercised before the end of 120 months (or 60 months where the participant is a non-executive directors) of the date of grant of that option and subject to such other conditions as may be introduced by the RC from time to time.

¹ The fair value of equity share options as at the date of grant is estimated by an external valuer using a trinomial option pricing model, taking into account the terms and conditions upon which options were granted.

The expected life of the options is based on historical data and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility is indicative of future trends, which may also not necessarily be the actual outcome. No other features of the option grant were incorporated into the measurement of fair value.

² The fair value of equity share options as at the date of grant is estimated by an external valuer using a trinomial option pricing model in the Bloomberg Executive Option Valuation Module ("BEOVM") to estimate the fair value of the options as at the date of grant, 25 August 2008.

BEOVM Parameters

The actual parameters applied in the BEOVM to estimate the fair values of the Options as at the date of grant are shown below:

Date of Grant	Vesting Date	Estimated Exercise Date	Subscription Price (S\$)	Last Traded Price (S\$)	Estimated Volatility (%)	Risk-free Rate (%)

23. Share capital and treasury shares (Continued)

(d) Performance share plan (Continued)

The PSP is a share incentive scheme which will allow the Company, inter alia, to target specific performance objectives and to provide an incentive for participants to achieve these targets. The directors believe that the PSP will help to achieve the following positive objectives:

- (a) incentivise employees to excel in their performance and encourage greater dedication and loyalty to the Group;
- (b) attract and retain employees whose contributions are important to the long-term growth and profitability of the Group;
- (c) recognise and reward past contributions and services and motivate employees to continue to strive for the Group's long-term prosperity; and
- (d) develop a participatory style of management which instils loyalty and a stronger sense of identification with the long-term goals of the Group.

The PSP is administered by the Remuneration Committee ("RC") which comprises three directors, namely Bernard Chen Tien Lap, Lai Chun Loong and Charles George St. John Reed.

The PSP shall continue in force at the discretion of the RC, subject to a maximum period of ten (10) years commencing on the date on which the PSP was adopted by the Company in EGM, provided always that the PSP may continue beyond the above stipulated period with the approval of Shareholders by ordinary resolution in general meeting, and of any relevant authorities which may then be required.

The Company may deliver shares pursuant to awards granted under the PSP by way of:-

- (i) issuance of new shares; and/or
- (ii) delivery of existing shares purchased from the market or shares held in treasury.

The total number of ordinary shares over which the Company may grant under the PSP shall not exceed 15% of the issued share capital of the Company on the day preceding the date of grant.

The Company has not granted any awards under the PSP for the financial year ended 31 December 2011.

In 2010, a share award under PSP was granted to employees and directors of the Company on 22 March 2010 in accordance with the approval by Shareholders at the EGM on 12 February 2010.

Details of the shares awarded pursuant to the PSP were as follows:

29. Financial risk management

Financial risk factors

The Group's activities expose it to market risk (including currency risk, interest rate risk and price risk), credit risk and liquidity risk. The Group's overall risk management strategy seeks to minimise any adverse effects from the unpredictability of financial markets on the Group's financial performance. It is, and has been throughout the year under review, the Group's policy that no trading in derivative financial instruments shall be undertaken.

The Board of Directors is responsible for setting the objectives and underlying principles of financial risk management for the Group. This includes establishing detailed policies such as authority levels, oversight responsibilities, risk identification and measurement and exposure limits.

Financial risk management is carried out by the finance department in accordance with the policies set. The finance personnel identifies and evaluates financial risks in close co-operation with the Group's operating units. The finance personnel measures actual exposures against the limits set and prepares periodic reports for review by the Financial Controller. Regular reports are also submitted to the Board of Directors.

(a) *Market risk*

(i) Currency risk

The Group operates in Asia with dominant operations in Singapore, Vietnam, Myanmar and Thailand. The Group regularly transact in currencies other than their respective functional currencies ("foreign currencies").

Currency risk arises within entities in the Group when transactions are denominated in foreign currencies such as the United States Dollar ("USD") and Thai Baht ("BAHT").

In addition, the Group is exposed to currency translation risk on the net assets in foreign operations. Currency exposure to the net assets of the Group's foreign operations has been monitored throughout the year under review and the impact to Group's financial statements are not significant.

The Group's currency exposure based on the information provided to key management is as follows:

29. Financial risk management (Continued)

(a) Market risk (Continued)

(i) Currency risk (Continued)

The Company is not exposed to currency risk since all its financial assets and liabilities as at 31 December 2010 and 2011 are denominated in Singapore Dollar.

If the other foreign currencies have changes against the SGD by 3% (2010: 3%) with all other variables including tax rate being held constant, the effects arising from the net financial assets / liabilities position will not be significant.

(ii) Price risk

The Group does not have exposure to equity price risk as it does not hold equity financial assets.

(iii) Cash flow and fair value interest rate risks

Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Fair value interest rate risk is the risk that the fair value of a financial instrument will fluctuate due to changes in market interest rates. As the Group has no significant interest bearing assets, the Group's income is substantially independent of changes in market interest rates. The Group's interest rate risk mainly arises from bank overdrafts and borrowings at floating interest rate. The Group manages its interest rate risks by keeping bank loans to the minimum required to sustain the operations of the Group.

(b) Credit risk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Group. The major classes of financial assets of the Group are bank deposits and trade receivables. For trade receivables, the Group adopts the policy of dealing with customers of appropriate credit history, and obtaining sufficient collateral where appropriate to mitigate credit risk.

It is also the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. Customers with high credit risks are required either to pay on cash term, make advance payments or issue letter of credits. The Group trades only with recognised, creditworthy and secured third parties, there is no requirement for collateral. In addition, receivable balances are monitored on an on-going basis with the result that the Group's exposure to bad debts is not significant. For other financial assets, the Group adopts the policy of dealing only with high credit quality counterparties.

The Group has concentration of credit risk with customers, who are foreign government agencies, for whom it has completed several network infrastructure projects. These customers have made an arrangement with a financial institution in its own country to issue irrevocable letters of credit in favour of the Group for the settlement of these projects. As at 31 December 2011, the total amount of the irrevocable letters of credit issued in favour of the Group amounted to S\$20,021,000 (2010: S\$24,968,000), which are classified as bills receivables (Note 12), and represents 86% (2010 : 78%) of the total trade receivables of the Group as at that date.

As the Group and Company does not hold any collateral, the maximum exposure to credit risk for each class of financial instruments is the carrying amount of that class of financial instruments presented on the balance sheet, except as follows:

	Company	
	2011 S\$'000	2010 S\$'000
Corporate guarantees provided to banks on subsidiary's loans	18,848	36,249

(b) *Credit risk (Continued)*

The credit risk for trade and bills receivables based on the information provided to key management are as follows:

	Group	
	2011	2010
	S\$'000	S\$'000
<u>By geographical areas</u>		
Singapore	1,616	2,727
Myanmar	6,751	14,910

- Other companies	1,607	3,782
	23,312	31,991

(i) Financial assets that are neither past due nor impaired

Bank deposits that are neither past due nor impaired are mainly deposits with banks with high credit-ratings assigned by international credit rating agencies. Trade receivables that are neither past due nor impaired are substantially companies with a good collection track record with the Group.

The Group's trade receivables not past due include receivables amounting to S\$1,032,000 (2010: S\$2,130,000). The Group has no trade receivables past due or impaired that were re-negotiated during the financial year.

(ii) Financial assets that are past due and/or impaired

There is no other class of financial assets that is past due and/or impaired except for trade receivables.

The age analysis of trade receivables past due but not impaired is as follows:

	Group	
	2011	2010
	S\$'000	S\$'000
Past due < 3 months	732	2,923
Past due 3 to 6 months	65	666
Past due over 6 months	1,462	1,304
	2,259	4,893

There are no trade receivables individually determined to be impaired as at the balance sheet date except for trade debts directly written off to profit or loss amounting to S\$NIL (2010: S\$539,000) (Note 6), as recoverability is determined to be low due to political unrest in the customers' country of origin.

(c) Liquidity risk

Prudent liquidity risk management includes maintaining sufficient cash and the availability of funding through an adequate amount of committed credit facilities (Note 20). At the balance sheet date, assets held by the Group for managing liquidity risk included cash and short-term deposits as disclosed in Note 11.

The table below analyses non-derivative financial liabilities of the Group and the Company into relevant maturity groupings based on the remaining period from the balance sheet date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

(d) Capital risk

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern and to maintain an optimal capital structure so as to maximise shareholder value. In order to maintain or achieve an optimal capital structure, the Group may adjust the amount of dividend payment, return capital to shareholders, issue new shares, buy back issued shares, obtain new borrowings or sell assets to reduce borrowings.

Management monitors capital based on a debt-equity ratio. The Group and the Company are also required by the banks to maintain a debt-equity ratio of not exceeding 3.0 times (2010: 2.8 times). The Group's and Company's strategies, which were unchanged from 2006, are to maintain debt-equity ratio within 2.5 times to 3.0 times.

The debt-equity ratio is calculated as total liabilities divided by total net tangible asset.

	Group	
	2011	2010
Total liabilities (S\$'000)	27,919	37,443

31. Segment information

Management has determined the operating segments based on the reports reviewed by the Board of Directors that are used to make strategic decisions. The Board of Directors comprises of executive and non-executive directors.

The Board of Directors considers the business from both a geographic and business segment perspective. Geographically, management manages and monitors the business in the three primary geographic areas: Singapore, Myanmar and Vietnam. All geographic locations are engaged in the project sales and project management and maintenance services.

The Group is organised into two operating segments – Project Sales and Project Management and Maintenance Services.

Project Sales segment engages in integration of network infrastructure that enable the customers to communicate electronically within an organisation or with another organisation whether located in the same country or globally. It also provides the customers with seamless integration of a wide variety of voice and data signals used in large institutional telecom applications.

The Project Management and Maintenance Services segment provides installation and implementation services of the network infrastructure or voice communication systems that have been purchased by the customers from the Group's principals, and maintenance and support services mainly for the network infrastructure and voice communication systems.

31. Segment information (Continued)

Allocation basis and transfer pricing

Segment results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly corporate assets, liabilities and expenses.

Transfer prices between business segments are set on an arm's length basis in a manner similar to transactions with third parties. Segment revenue, expenses and results include transfers between business segments. These transfers are eliminated on consolidation.

No disclosure of capital expenditure and depreciation of plant and equipment by business segments are made as the assets of the Group are used interchangeably by different business segments and therefore, it is not practicable to segregate the assets for disclosure purpose. The directors of the Company do not consider this information to be meaningful.

(c) *Reconciliation*

(i) Segment assets

The amounts provided to the Board of Directors with respect to total assets are measured in a manner consistent with that of the financial statements. For the purposes of monitoring segment performance and allocating resources between segments, the Board of Directors monitors the property, plant and equipment, intangible assets, inventories, receivables and operating cash attributable to each segment. All assets are allocated to reportable segments other than cash and cash equivalent, receivables and property, plant and equipment.

Segment assets are reconciled to total assets as follows:

	2011	2010
	S\$'000	S\$'000
Segment assets for reporting segments	36,809	44,819
Unallocated:

33. New accounting standards and FRS interpretations

Below are the mandatory standards, amendments and interpretations to existing standards that have been published, and are relevant to the Group's accounting periods beginning on or after 1 January 2012 or later periods and which the Group has not early adopted:

- Amendments to FRS 1 – Presentation of Items of Other Comprehensive Income (effective for annual periods beginning on or after 1 July 2012)
- Amendments to FRS 12 Deferred Tax – Recovery of Underlying Assets (effective for annual periods beginning on or after 1 January 2012)
- Amendments to FRS 101 – Secure Hyperinflation and Removal of Fixed Prices of First-time Adopters (effective for annual periods beginning on or after 1 July 2011)
- Amendments to FRS 107 Disclosures – Transfer of Financial Assets (effective for annual periods beginning on or after 1 July 2011)
- FRS 19 (revised 2011) – Employee Benefits (effective for annual periods beginning on or after 1 January 2013)
- FRS 27 (revised 2011) – Separate Financial Statements (effective for annual periods beginning on or after 1 January 2013)
- FRS 110 – Consolidated Financial Statements (effective for annual periods beginning on or after 1 January 2013)
- FRS 111 – Joint Arrangements (effective for annual periods beginning on or after 1 January 2013)
- FRS 112 – Disclosure of Interest in Other Entities (effective for annual periods beginning on or after 1 January 2013)
- FRS 113 – Fair Value Measurement (effective for annual periods beginning on or after 1 January 2013)

The management anticipates that the adoption of the above FRSs, INT FRSs and amendments to FRS in the future periods will not have a material impact on the financial statements of the Group in the period of their initial adoption.

Notice of Annual General Meeting

NOTICE IS HEREBY GIVEN that the Annual General Meeting of Ntegrator International Ltd. (the "Company") will be held at 4 Leng Kee Road #06-04, SIS Building, Singapore 159088 on Monday, 30 April 2012 at 11.30 a.m. for the following purposes:

AS ORDINARY BUSINESS

1. To receive and adopt the Directors' Report and the Audited Accounts of the Company for the year ended 31 December 2011 together with the Auditors' Report thereon.

(Resolution 1)
2. To re-elect the following Directors retiring pursuant to Article 99(2) of the Company's Articles of Association:

Mr Bernard Chen Tien Lap **(Resolution 2)**
Mr Han Meng Siew **(Resolution 3)**
Mr Lee Keen Whye **(Resolution 4)**

Mr Lee Keen Whye will, upon re-election as Director of the Company, remain as a member of the Audit Committee and will be considered independent for the purposes of Rule 704(7) of the Catalist Rules of the SGX-ST.
3. To approve the payment of Directors' fees of S\$284,000 for the year ended 31 December 2011 (2010: S\$284,000).

(Resolution 5)
4. To re-appoint Nexia TS Public Accounting Corporation as the Company's Independent Auditors and to authorise the Directors to fix their remuneration.

(Resolution 6)
5. To transact any other ordinary business which may properly be transacted at an Annual General Meeting.

AS SPECIAL BUSINESS

To consider and if thought fit, to pass the following resolutions:

6. ORDINARY RESOLUTION: SHARE ISSUE MANDATE

That pursuant to Section 161 of the Companies Act, Cap. 50 and Rule 806 of the Catalist Rules, authority be given to the Directors of the Company to issue shares ("Shares") whether by way of rights, bonus or otherwise, and/or make or grant offers, agreements or options (collectively, "Instruments") that might or would require Shares to be issued, including but not limited to the creation and issue of (as well as adjustments to) warrants, debentures or other instruments convertible into Shares at any time and upon such terms and conditions and to such persons as the Directors may, in their absolute discretion, deem fit provided that:

- a) the aggregate number of Shares (including Shares to be issued in pursuance of Instruments made or granted pursuant to this Resolution) does not exceed one hundred percent (100%) of the total number of issued shares (excluding treasury shares) in the capital of the Company at the time of the passing of this Resolution, of which the aggregate number of Shares and convertible securities to be issued other than on a pro-rata basis to all shareholders of the Company shall not exceed fifty percent (50%) of the total number of issued shares (excluding treasury shares) in the capital of the Company;

AS SPECIAL BUSINESS (Continued)**6. ORDINARY RESOLUTION: SHARE ISSUE MANDATE (Continued)**

- (b) for the purpose of determining the aggregate number of Shares that may be issued under sub-paragraph (a) above, the total number of issued shares (excluding treasury shares) shall be based on the total number of issued shares (excluding treasury shares) of the Company as at the date of the passing of this Resolution, after adjusting for:
- (i) new shares arising from the conversion or exercise of convertible securities;
 - (ii) new shares arising from exercising share options or vesting of share awards outstanding or subsisting at the time this Resolution is passed; and
 - (iii) any subsequent bonus issue, consolidation or subdivision of Shares.
- (c) in exercising the authority conferred by this Resolution, the Company shall comply with the requirements imposed by the SGX-ST from time to time and the provisions of the Catalist Rules for the time being in force (in each case, unless such compliance has been waived by the SGX-ST), all applicable legal requirements under the Companies Act, Cap. 50 and otherwise, the Articles of Association of the Company; and
- (d) unless revoked or varied by the Company in general meeting, such authority shall continue in force until the conclusion of the Company's next Annual General Meeting or the date by which the next Annual General Meeting of the Company is required by law to be held, whichever is the earlier.
[See Explanatory Note (i)] **(Resolution 7)**

7. ORDINARY RESOLUTION: AUTHORITY TO ALLOT AND ISSUE SHARES UNDER THE NTEGRATOR SHARE OPTION SCHEME AND NTEGRATOR PERFORMANCE SHARE PLAN

That pursuant to Section 161 of the Companies Act, Cap. 50, the Directors be authorised and empowered to allot and issue shares in the capital of the Company to all the holders of options granted by the Company, whether granted during the subsistence of this authority or otherwise, under the Ntegrator Share Option Scheme and the Ntegrator Performance Share Plan (the "Schemes") upon the exercise of such options and in accordance with the terms and conditions of the Schemes, provided always that the aggregate number of additional ordinary shares to be allotted and issued pursuant to the Schemes shall not exceed fifteen percent (15%) of the total number of issued shares (excluding treasury shares) in the capital of the Company from time to time.

Notes:

1. Please insert the total number of Shares held by you. If you have Shares entered against your name in the Depository Register (as defined in Section 130A of the Companies Act, Chapter 50 of Singapore), you should insert that number of Shares. If you have Shares registered in your name in the Register of Members, you should insert that number of Shares. If you have Shares entered against your name in the Depository Register and Shares registered in your name in the Register of Members, you should insert the aggregate number of Shares entered against your name in the Depository Register and registered in your name in the Register of Members. If no number is inserted, the instrument appointing a proxy or proxies shall be deemed to relate to all the Shares held by you.
2. A member of the Company entitled to attend and vote at a meeting of the Company is entitled to appoint one or two proxies to attend and vote in his/her stead. A proxy need not be a member of the Company.
3. Where a member appoints two proxies, the appointments shall be invalid unless he/she specifies the proportion of his/her shareholding (expressed as a percentage of the whole) to be represented by each proxy.
4. The instrument appointing a proxy or proxies must be deposited at the registered office of the Company at 4 Leng Kee Road #06-04, SIS Building, Singapore 159088 not less than forty-eight (48) hours before the time appointed for the Meeting.
5. The instrument appointing a proxy or proxies must be under the hand of the appointor or of his attorney duly authorised in writing. Where the instrument appointing a proxy or proxies is executed by a corporation, it must be executed either under its seal or under the hand of an officer or attorney duly authorised. Where the instrument appointing a proxy or proxies is executed by an attorney on behalf of the appointor, the letter or power of attorney or a duly certified copy thereof must be lodged with the instrument.
6. A corporation which is a member may authorise by resolution of its directors or other governing body such person as it thinks fit to act as its representative at the Meeting, in accordance with Section 179 of the Companies Act, Chapter 50 of Singapore.

General:

The Company shall be entitled to reject the instrument appointing a proxy or proxies if it is incomplete, improperly completed or illegible or where the true intentions of the appointor are not ascertainable from the instructions of the appointor specified in the instrument appointing a proxy or proxies. In addition, in the case of Shares entered in the Depository Register, the Company may reject any instrument appointing a proxy or proxies lodged if the member, being the appointor, is not shown to have Shares entered against his name in the Depository Register as at forty-eight (48) hours before the time appointed for holding the Meeting, as certified by The Central Depository (Pte) Limited to the Company.
