*Singapore, February 22, 2008* – Catalyst-listed Ntegrator International Ltd (“Ntegrator” or the “Group”), a leading integration specialist and provider of network infrastructure and voice communication systems regionally, today announced a set of healthy financials for its full year ended December 31, 2007 (“FY2007”).

The Group posted a 28.1% growth for its FY2007 net profit from S\$1.7 million in FY2006 to S\$2.2 million in FY2007. This was achieved on the back of S\$40.0 million revenue in FY2007, a 47.9% increase over that of S\$27.0 million in FY2006.

In tandem with the better turnover, gross profit also rose significantly. The Group achieved a 44.1% increase in gross profit, from S\$2.0 million in FY2006 to S\$2.9 million in FY2007.

Commenting on the Group’s stellar performance, Mr. Jimmy Chang, Managing Director of Ntegrator, said, “We are delighted to deliver a stronger performance for FY2007. This is a clear indication that our continuous efforts to focus on strategic key markets regionally have paid off.”

## **Outlook and Future Plans**

The Group expects business conditions to remain positive, though challenging and competitive, in the current financial year.

“We are confident that growth momentum will be sustained in the network infrastructure and voice communication industries, supported by the rising budgets of governments and enterprises around the region for information technology and telecoms infrastructure investment.

“As such, we feel that it is an opportune time now for the Group to actively seek strategic partnerships with other like-minded firms. The expansion will undoubtedly give us the scale to deepen market penetration in existing markets, and develop new markets and products for risk diversification.

“Moving forward, we will maintain our focus on the key markets we operate in regionally, and will also continue to build on our business relationships with our principal suppliers, all of whom are industry leaders in their respective fields,” concluded Mr Chang.

The Group reported a healthy order book of S\$27.9 million as at December 31, 2007, the majority of which is expected to be completed in FY2008.

To reward its supportive shareholders, the Group has proposed a final dividend of 0.25 cents per ordinary share.

Barring any unforeseen circumstances, the Group is expected to be profitable for FY2008.
