

ANNOUNCEMENT & NEWS RELEASE

NTEGRATOR WINS FOUR CONTRACTS WORTH S\$10.7 MILLION FOR PROJECTS IN VIETNAM, SINGAPORE AND MYANMAR

- ***New orders from Viettel for the supply of a batch of high-performance batteries and provision of SDH equipment for network expansion***
- ***Awarded a contract by the Directorate of Procurement in Myanmar for the supply of Telecom transmission equipment and accessories***
- ***Awarded a contract for the supply, installation, testing and commissioning of the Communication Backbone Network by Singapore Technologies Electronics***

Singapore, January 28, 2015 – Ntegrator International Ltd (“Ntegrator” or “the Group”), a leading regional communications network specialist and systems integrator, today announced that it has secured four contracts worth S\$10.7 million for projects in Vietnam, Singapore and Myanmar.

The first contract was awarded by the Viettel Group, Vietnam’s largest mobile network operator with a growing international presence. The contract is for the supply of 12-Volt, 155-Ampere hour batteries. The orders were awarded under a frame contract signed in late 2014, which established Ntegrator as one of the main suppliers of the Narada brand of batteries to Viettel Group on a continuing basis.

The second contract was awarded by a subsidiary of the Viettel Group – Viettel Global Investment Joint Stock Company – for the provision of Synchronous Digital Hierarchy (“SDH”) equipment for network expansion. SDH equipment allows for synchronous data transmission and provides an efficient, economical network management system. The system can accommodate bandwidth-consuming applications and services and is internationally recognised for its high speed data transfer of telecommunication and digital signals

The third contract is from Myanmar’s Directorate of Procurement for the supply of Telecom transmission equipment and accessories including Fiber Optic Cables.

The aforementioned contracts are slated for delivery in the current financial year and are expected to contribute positively to the Group’s financial performance in the financial year ending December 31, 2015 (“FY2015”), subject to timely completion of the project and effective cost management.

The fourth contract was awarded by Singapore Technologies Electronics Limited and is for the supply, installation, testing and commissioning of the Communication Backbone Network at the Tuas West extension stations and integrated Operation Control Centre. The Backbone Network provides a reliable path of information exchange between different critical and essential services between stations. Work on this two-year contract is expected to contribute positively to the Group’s financial performance in FY2015 and the financial year ending December 31, 2016, subject to timely completion of the project and effective cost management.

Commenting on the contract wins, Mr. Jimmy Chang, Managing Director of Ntegrator said, “We are delighted that 2015 has started off with a steady flow of contract wins from repeat customers that continue to place their confidence in us. The contract wins reaffirm our capabilities and is testament to our growing operations in the region. We will continue to deliver high quality products and services to remain a preferred supplier and service provider of quality.”

“Moving forward, we will continue to leverage market demand for telecom services, communications applications and network equipment for new growth opportunities.”

About Ntegrator International Ltd

Established in April 2002 and listed on Catalist (formerly known as SESDAQ) three years later, on October 26, 2005, Ntegrator’s core businesses include the design, installation and implementation of data, video, fibre optics, wireless and cellular network infrastructure as well as voice communication systems. The Group provides project management services as well as maintenance and support services.

Headquartered in Singapore, Ntegrator has operations in the region, covering Singapore, Vietnam, Myanmar and Thailand.
