NTEGRATOR CLINCHES FIVE CONTRACTS WORTH S\$11.0 MILLION IN SINGAPORE AND VIETNAM

- *Awarded two contracts for the supply of high-performance batteries to Viettel, Vietnam's largest mobile network operator*
- *Three contracts in Singapore for the provision of pipeline installation and maintenance services and supply of telecommunications equipment and fiber optics*
- *Contracts slated for delivery in FY2016*

Singapore, May 16, 2016 – Ntegrator International Ltd (“Ntegrator” or “the Group”), a leading regional communications network specialist and systems integrator, today announced that it has secured five contracts worth approximately S\$11.0 million.

Two of the contracts were awarded by the Group's repeat customer Viettel, Vietnam's largest mobile network operator, for the supply of high-performance batteries. The orders were obtained under a frame contract signed in 2015, whereby Ntegrator was recognised as one of the main suppliers of the Narada brand of batteries to Viettel on an ongoing basis. The new contracts marks the fourth and fifth series of orders awarded to Ntegrator to-date under the frame contract.

The third contract was awarded by a Singapore-based service provider and involves the supply, installation and commissioning of optical distribution frames and all fiber cabling accessories. The two remaining contracts were awarded by a Singapore-based regional service provider, and involves the provision of pipeline installation and maintenance services as well as the supply of telecommunications equipment.

All five contracts are slated for delivery in FY2016 and are expected to contribute positively to the Group's financial performance for the financial year ending December 31, 2016 ("FY2016"), subject to timely completion of the project and effective cost management.

Mr. Jimmy Chang, Managing Director of Ntegrator, said, "The confidence placed in us by our repeat customers is testament to the Group's commitment to delivering quality products and services. As the information communication technologies (ICT) and related infrastructure industry develops in our core markets of Singapore, Vietnam and Myanmar, we will continue to closely monitor industry developments to tap new opportunities as they arise."
