

## **ANNOUNCEMENT AND NEWS RELEASE**

### **NTEGRATOR WINS 5 CONTRACTS WORTH APPROXIMATELY S\$7.5 MILLION**

*Singapore, April 14, 2011* – Ntegrator International Ltd (“Ntegrator” or “the Group”), a leading regional communications network specialist and systems integrator, has secured another five contracts with repeat customers in Singapore and Indo-China, including Vietnam’s largest telco operator, Viettel Corporation (“Viettel”), Singapore Telecommunications Ltd (“SingTel”) and Huawei International Pte Ltd (“Huawei”).

Some of these new contracts, which were previously delayed due to cross-border and licensing issues, were awarded now upon resolution of these pending matters. As work on the new projects are expected to be completed in the current financial year 2011, they are expected to contribute positively to Ntegrator’s financial performance in FY2011.

“We are very pleased to have secured more repeat business from our major customers, all of whom have accepted the Group’s tighter credit policy which requires Letters of Credit for all projects outside Singapore. This is a strong testament of their confidence in Ntegrator, especially our proven track record in providing high-tech network infrastructure and voice communication systems,” said Mr Jimmy Chang, Managing Director of Ntegrator.

“These contracts reflect the strong relationships that we have with the leading telecommunications companies in Singapore and the region, all of whom are our long-time customers. As they launch new initiatives in info-communications in the region, we are well-positioned to support them in terms of network infrastructure development as well as maintenance,” he added.

The Viettel Group of Companies contracts involve Dense Wavelength Division Multiplexing (“DWDM”) systems for expanding the fiber optic cable network capacity without laying additional fiber optics cables.

The SingTel contract involves the supply and installation of a FM video transmitter and receiver, data transceiver, 19” rack and device surge protection.

The contract for Huawei includes the supply of Ethernet Port Replicator with management software and the Optical Distribution Frame hardware and accessories as well as the provision of five year warranty and maintenance services.

### **About Ntegrator International Ltd**

Established in April 2002, Ntegrator was listed on Sesdaq (now transitioned to Catalist) on October 26, 2005, after three profitable years. Ntegrator’s core businesses include the design, installation and implementation of data, video, fibre optics, wireless and cellular network infrastructure as well as voice communication systems. The Group also provides project management services as well as maintenance and support services.

Headquartered in Singapore, Ntegrator has expanded its operations regionally, covering Singapore, Vietnam, Myanmar, Malaysia and Thailand.
