

## ANNOUNCEMENT AND NEWS RELEASE

### **NTEGRATOR SECURES TWO CONTRACTS WORTH APPROXIMATELY S\$2.43 MILLION FROM A LEADING NETWORK SERVICE PROVIDER IN THE REGION**

- *One contract is for the installation and maintenance of fibre and copper cables and an Air Blown Fibre (“ABF”) system; while the other is for the installation of pipes, construction of manholes, and maintenance of pipelines and manholes*

**Singapore, June 14, 2021** – Ntegrator International Ltd (“**Ntegrator**” or “**the Group**”), a leading regional communications network specialist and systems integrator, today announced that it had secured two contracts totaling approximately S\$2.43 million from a leading telecommunications network service provider in the region.

One of the contracts involve the supply, installation and maintenance services for fibre and copper cables for a nationwide project in the region and while the other project involves the installation of pipes, construction of manholes and the maintenance of pipelines and manholes. Both contracts have commenced in June 2021 and will span 18 months.

These contract wins follow on the heels of a previous contract win in February 2021 worth approximately S\$6.1 million from a repeat customer.

The contracts are expected to contribute positively to the Group’s financial performance and condition for the year ending 31 December 2021, subject to the timely completion of the project and effective cost management.

Mr Christian Kwok-Leun Yau Heilesen, Executive Director of Ntegrator, commented: ***“With the recent rise of divestment of infrastructure assets in the telecommunication industry in the region, we are optimistic that there will be a surge in demand for the upgrading and maintenance of these assets as owners seek to window-dress these assets to maximise their valuation for eventual sale. As Vietnam aims to expedite its 5G adoption and Myanmar pushes towards a digital economy, Ntegrator stands prime to seize these opportunities to build up our order book.”***

Mr Jimmy Chang, Managing Director of Ntegrator Pte Ltd, added: ***“These contracts bear testament of our customers’ unwavering trust and confidence in us and our track record. We shall continue to pursue opportunities in Singapore, Vietnam, Myanmar and beyond by leveraging on our established working relationships with our customers and our business partners in the region.”***

### **About Ntegrator International Ltd**

Established in April 2002 and listed on Catalist (formerly known as SESDAQ) three years later, on 26 October 2005, Ntegrator's core businesses include the design, installation and implementation of data, video, fibre optics, wireless and cellular network infrastructure as well as voice communication systems. The Group provides project management services as well as maintenance and support services.

Headquartered in Singapore, Ntegrator has operations in Singapore, Vietnam and Myanmar.
