Singapore, August 13, 2009 – Catalyst-listed Ntegrator International Ltd (“Ntegrator” or the “Group”), a leading integration specialist and provider of network infrastructure and voice communication systems regionally, today reported a 47.9% jump in Group revenue to S\$31.6 million in the six months ended June 30, 2009 (“HY2009”), compared to S\$21.3 million in the corresponding period the previous year (“HY2008”). The Group’s strong performance was mainly due to the completion of projects in Vietnam, Myanmar and Singapore.

To reward its loyal shareholders, Ntegrator is proposing to issue a bonus issue of three Warrants for every 10 ordinary shares.

Commented Mr Jimmy Chang, Managing Director of Ntegrator: “We remain confident of the long-term growth prospects in the burgeoning Indo-China region, which is still in its initial stage of information technology developments. The proposed bonus warrants, if approved, will provide shareholders the opportunity to partake in the Group’s future growth, while allowing the Group to continue conserving cash for future growth plans.”

Strong Financial Fundamentals

Net profit for HY2009 declined 42.7% to S\$0.6 million, from S\$1.0 million reported in HY2008. However, this is a significant turnaround, on a half-year on half-year basis, from a net loss of S\$0.6 million in the six months ended December 31, 2008 (“2H2008”).

The Group continued to enjoy a healthy balance sheet in HY2009, with shareholders' equity improving to S\$22.1 million and net debt-to-equity ratio remaining low at 0.09 as at June 30, 2009. Net asset value per ordinary share also improved to 6.47 Singapore cents as at June 30, 2009, supported by the Group's growing asset value.

Segmental Performance

The Group's core Project Sales registered a 44.1% increase in revenue to S\$29.0 million, reflecting the continuing confidence the Group's valued customers have in Ntegrator. Revenue for the Project Management and Maintenance Services division more than doubled from S\$1.2 million in HY2008 to S\$2.5 million in HY2009, as the Group secured more new project management services contracts as well as renewal contracts by existing customers. This would provide a steady stream of recurring revenue for Ntegrator.

Strong Order Book

Moving ahead, the Group anticipates the operating climate of the information technology industry to remain challenging and competitive.

Said Mr Chang: “Our strategic focus to grow our presence in the Indo-China region has provided us with some shelter against the global economy volatilities, as evidenced by our growing revenue and orderbook. However, we were not spared from the rising costs of securing bank and trade facilities to support our ongoing contracts. Moving forward, we will continue with our cost-control measures, which will support our long-term growth plans in the Indo-China region.”

Ntegrator's outstanding order book improved from S\$37.0 million as at end December 2008 to S\$45.3 million as at end June 2009.
