NTEGRATOR SECURES S\$3.12 MILLION CONTRACT TO PROVIDE BROADBAND ACCESS SOLUTION IN VIETNAM

- **3rd Contract from Viettel, Second Largest Telco in Vietnam**
- **Brings the total value of contracts secured from Viettel since August 2006 to S\$7.82 million**

Singapore, September 29, 2006 – Ntegrator International Ltd. (“Ntegrator”), a leading regional communications network specialist and systems integrator, today announced that it has secured a third contract worth S\$3.12 million from Viettel Corporation (“Viettel”) to provide broadband access solutions in Vietnam. Viettel is a fixed line, ISP and cellular license holder and the second largest telecommunications operator in Vietnam. This takes the total value of Ntegrator’s outstanding contracts with Viettel to a combined sum of S\$7.82 million.

Mr Jimmy Chang, Managing Director of Ntegrator, said: “We are delighted to have secured a third contract from Viettel within two calendar months. Over the past four years, we have been working together with Viettel on various infrastructure enhancements in Vietnam and are pleased to be their regular partner to further improve Vietnam’s broadband access network.”

Under this third contract, Ntegrator will provide Viettel with an Internet protocol digital subscriber line access multiplexer (“IP DSLAM”) infrastructure solution, complete with a network management system. Upon installation completion, this initial phase will provide 70,000 Asymmetrical Digital Subscriber Lines (“ADSL”) for Viettel to expand its last mile broadband access network to cater to the fast growing broadband demand in Vietnam.

“The infrastructure will enable Viettel to offer its subscribers reliable, cost effective high-speed internet access and POT services,” added Mr Chang.

Early this month, Ntegrator was awarded two contracts worth S\$4.7 million to provide network infrastructure solutions to Viettel. The first was a full turnkey Dense Wavelength Division Multiplexing optical backbone from Hanoi to Ho Chi Minh City. When completed in early November, it will support up to 40 Channels, each capable of carrying a transmission bit rate of 2.5 Gbps of traffic. The second contract is for the supply of the last mile Synchronous Digital Hierarchy (“SDH”) with drop and insert multiplexers capable of carrying down to 2 Mbps traffic, allowing Viettel to interconnect all its base stations with a Mobile Switching Centre (“MSC”).

All three contracts with Viettel are scheduled to be completed in this financial year and are expected to have a positive impact on the earnings of the Company for the financial year ending December 31, 2006.

About Ntegrator International Ltd.

Established in April 2002, Ntegrator's core businesses include the design, installation and implementation of data, video, fibre optics, wireless and cellular network infrastructure as well as voice communication systems. The Group provides project management services as well as maintenance and support services.

Ntegrator's operations are located regionally covering Singapore, Vietnam, Myanmar, Malaysia, the Philippines and Thailand.

Ntegrator was listed on the SGX-Sesdaq on October 26, 2005. Ntegrator's IPO was sponsored by UOB Asia Limited.
